Analytics tools (December 2025)

We perform monthly source code scans of all known TMAs. Below is the distribution of analytical tools used in these apps.

Method of Data Collection:

- Wait for the application to load
- Scan all network requests
- Scan all included scripts

Please note that the data may have some inaccuracies due to the various methods used to trigger scripts.

new

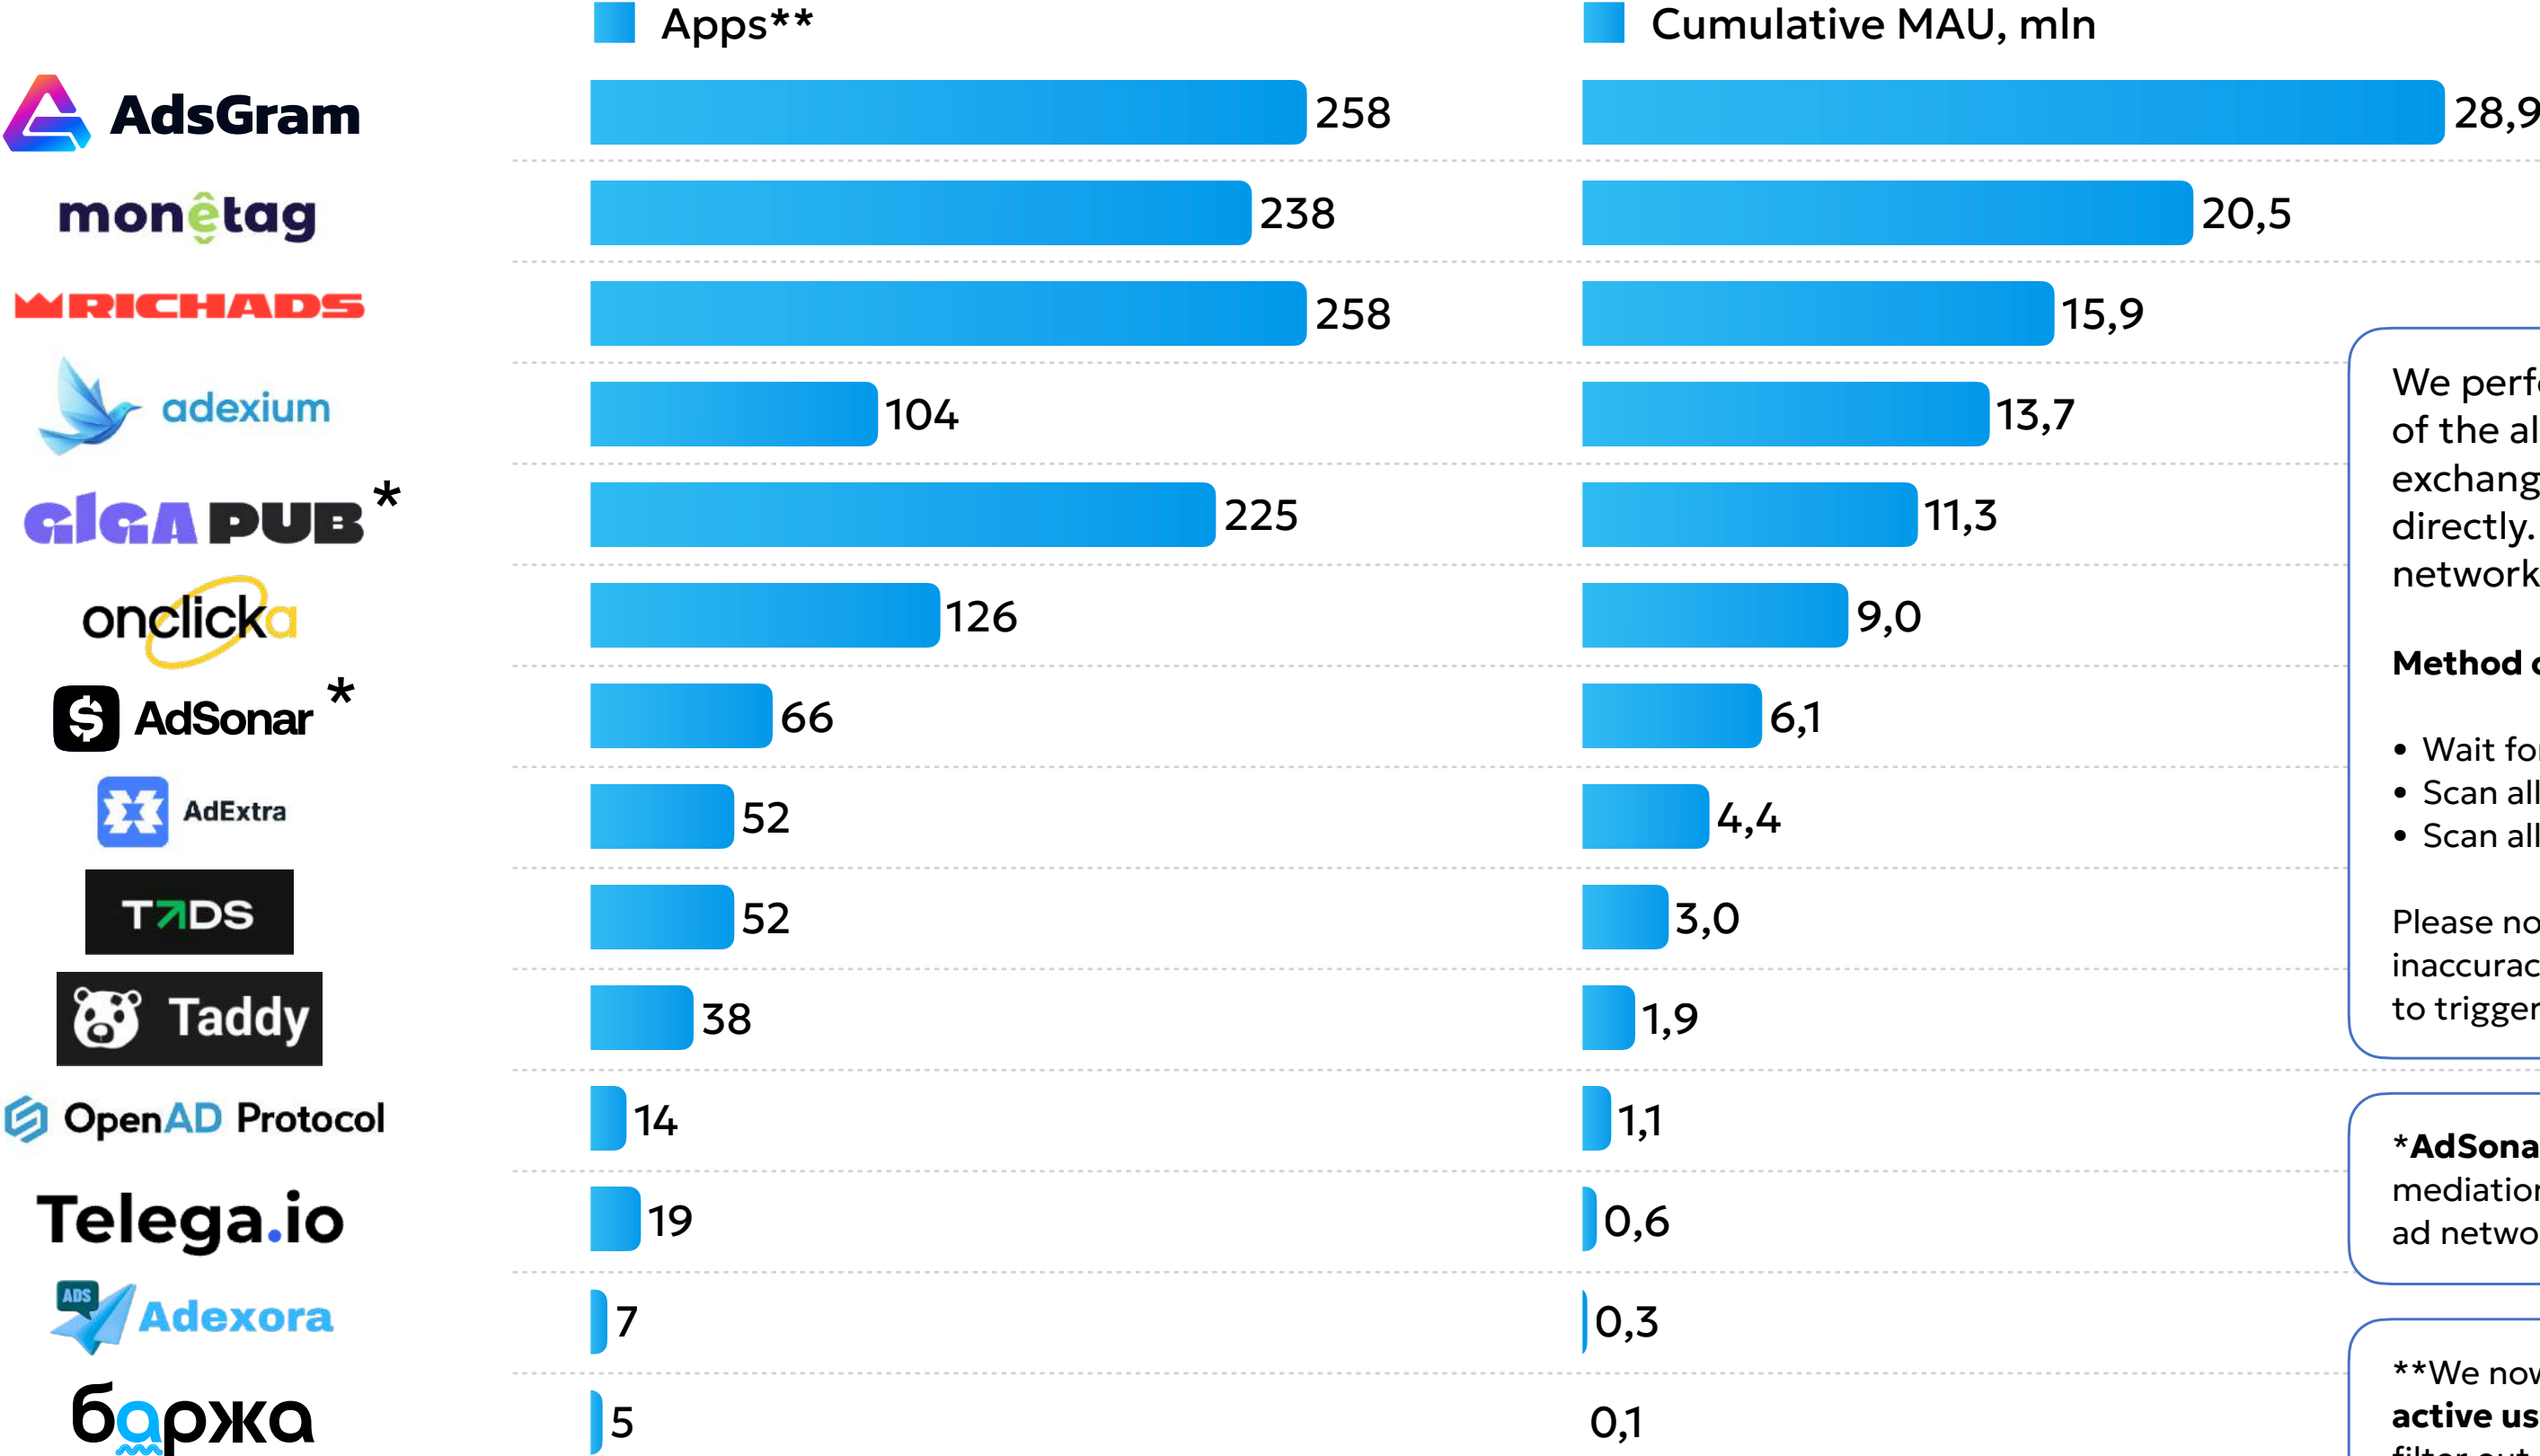

Previously, we gathered the results of the top 1000 apps, but now we have advanced our detection technology that can now provide us with results **across all known TMAs.**

Web version of this report:
[FindMini.app Sensor](#)

Ad Networks used in TMAs

December 2025

We perform monthly source code scans of the all known TMAs and also exchange data with Ad Networks directly. This is the distribution of ad networks used in these apps.

Method of Data Collection:

- Wait for the application to load
- Scan all network requests
- Scan all included scripts

Please note that the data may have some inaccuracies due to the various methods used to trigger scripts.

***AdSonar** and **GigaPub** are advertising mediation platforms that combine multiple ad networks.

We now only count TMAs with a **monthly active user (MAU) of 1 or more. This helps us filter out spammy and mass-produced apps.

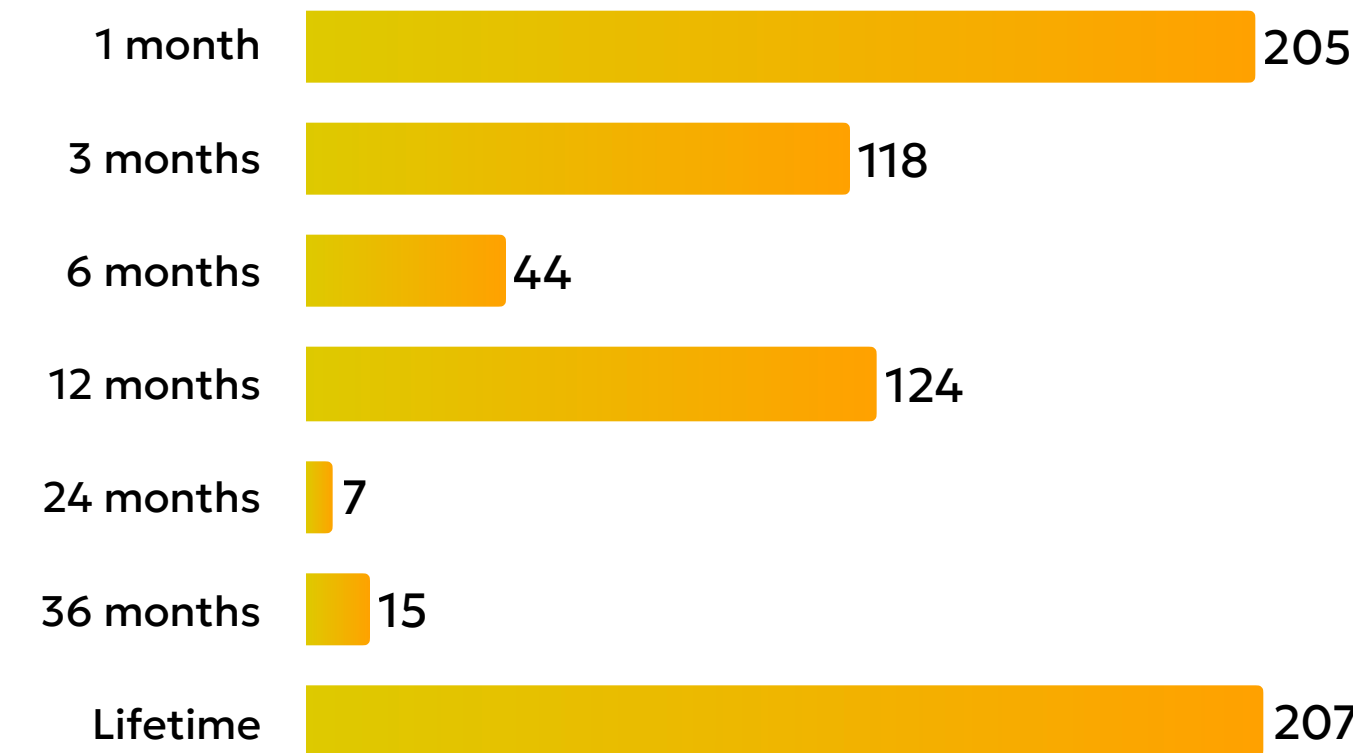

Affiliate programs overview

December 2025

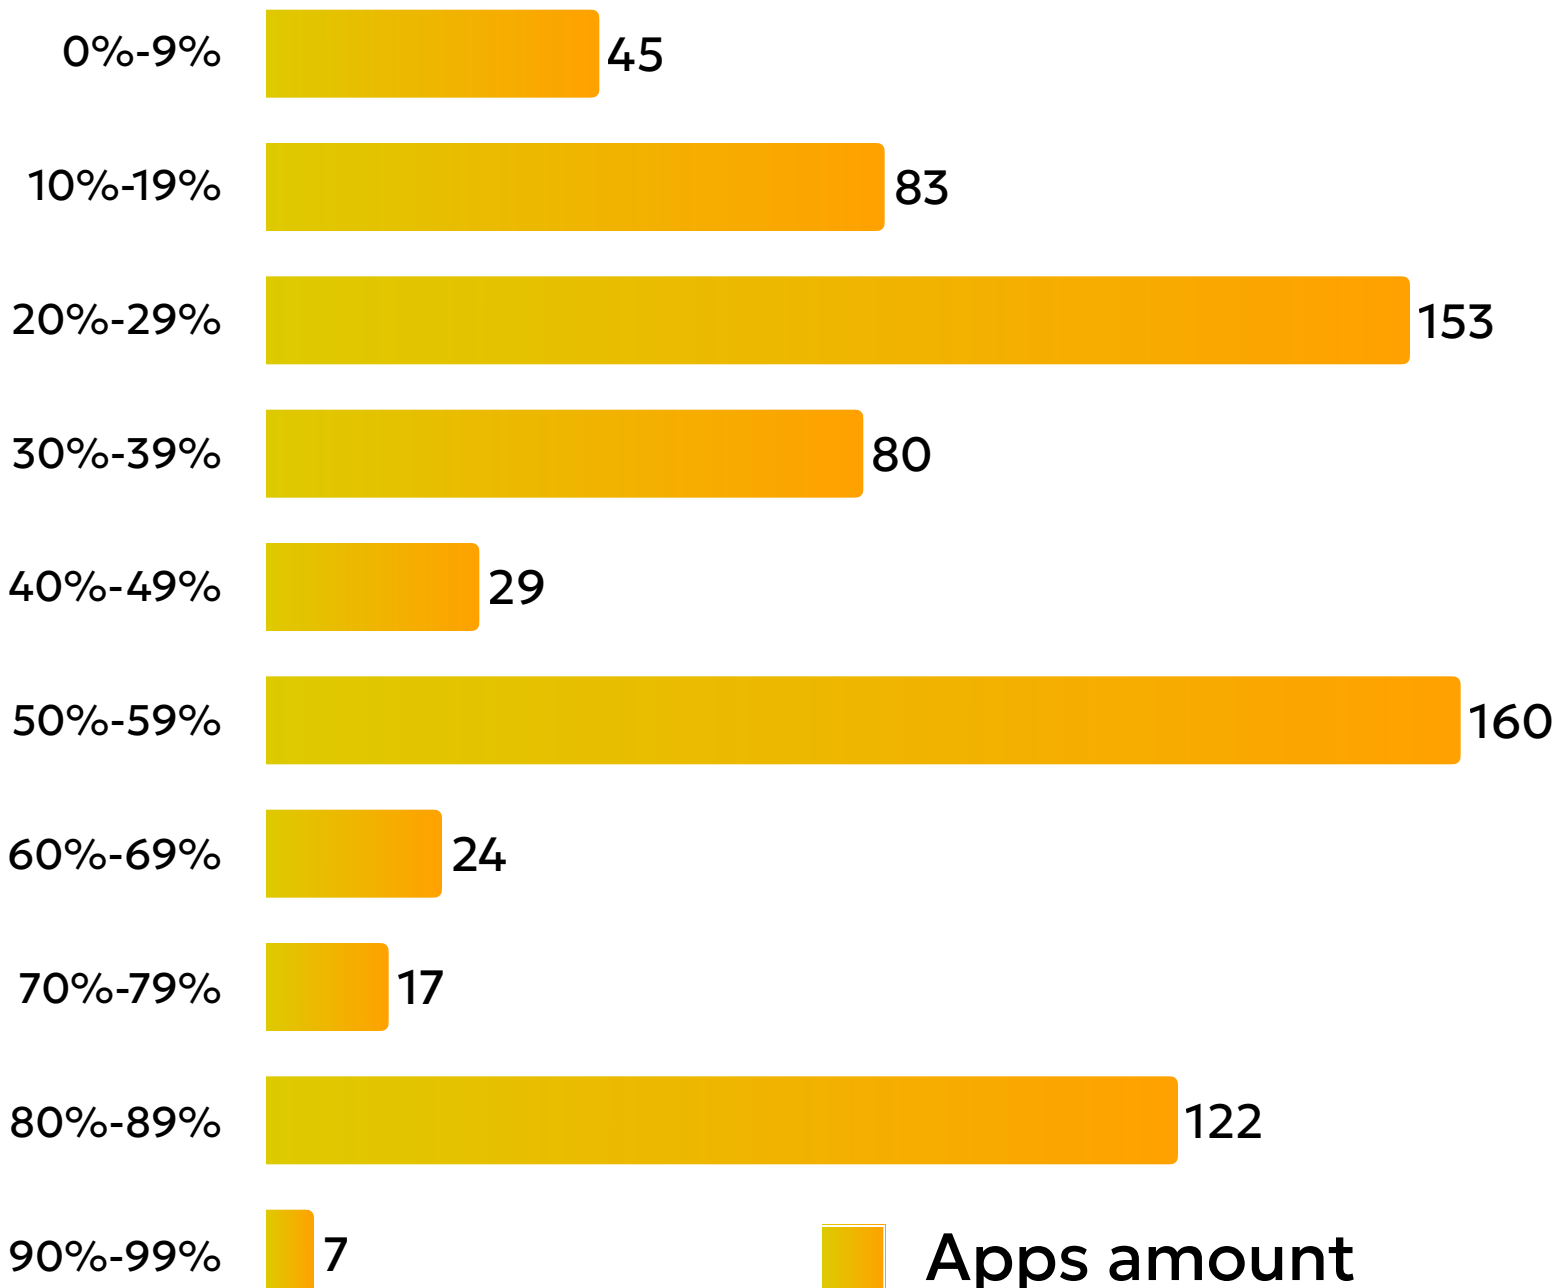

720 affiliate programs across all apps
returned by Telegram API stats call

Duration of affiliate programs

Commission size distribution
